REASONS FOR ALLOWANCE

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Chinn on 3/10/2008:

In the specification, at page 1, line 3, replace "anti-epileptic" with "anti-epileptic".

The following is an examiner's statement of reasons for allowance:

The outstanding prior art rejection is withdrawn since neither of the applied references teach the combined use of ammonia and alkaline hydroxide as eluting agents. Moreover, the applied references fail to provide a basis for modifying their disclosures to include the combined use of ammonia and alkaline hydroxide as eluting agents.

The double patenting rejection over 11/390451 is withdrawn since the claims of that application fail to recite the combined use of ammonia and alkaline hydroxide as eluting agents. Moreover, the claims of 11/390451 fail to provide a basis for modifying their scope to include ammonia and alkaline hydroxide as eluting agents.

The double patenting rejection over 10/582790 is withdrawn in view of the Terminal Disclaimer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
